Professional Summary

ECE Undergraduate | PCB Design & IoT
Focused on bridging hardware and software through KiCad 7.0, AutoCAD, and C. Proven ability to prototype functional systems from complex schematics. Eager to contribute to technical team projects and real-world engineering challenges.

Skills & Tools

- PCB Design
- Precision Soldering
- Netwrork Theory
- Circuit Troubleshooting
- Schematic Literacy
- C programming
- Drafting
- Drone Module

Education

- **Shri Mata Vaishno Devi University**
  B.tech., Electronics & Communication, 2025-2029
  GPA: **SGPA(1st Sem) - 9.0**
- **Rainbow Public School**(CBSE)
  12th , 2023-2025
  GPA: 82.8%
- **Jawahar Navodaya Vidyalaya(**CBSE)
  10th , 2018-2023
  GPA: 89.6%

Achievements & Participations

- Winner (**1st** Place) | PCB Designing Marathon | [EKATVA(Tech Fest)-2026]
- Participant , **Smart India Hackathon** , 2025 , Title- **Disaster Response Drone for Remote Areas**, Designed the prototype of an AI-powered disaster response drone, featuring a 5 kg payload and autonomous survivor detection using thermal imaging and SLAM. Pitched a technical framework integrating Jetson based processing, Tensor Flow, and mesh networking for remote disaster response and 3D mapping.
- **Infosys STEM Star Scholar**.

Technical & Theoretical Skills

- **Design & Prototyping:** PCB Design (KiCad 7.0), AutoCAD (2D Drafting), Breadboarding, Precision Soldering (Through-hole/SMD).
- **Testing & Measurement:** Digital Multimeters (V/I/R), Continuity Testing, Schematic Literacy, Circuit Troubleshooting.
- **Programming & Software:** C, VS Code.
- **Core Theory**: Network Analysis & Synthesis (Mesh/Nodal, Theorems, Transients), Semiconductor Physics (Diodes, BJTs, MOSFETs), Solid State Devices.

Soft Skills & Extra Curricular

- **Strengths:** Leadership Skills, Teamwork, Project Management, Self-disciplined & Time management, Resilience under pressure, Problem Solving & Critical Thinking, Presentation Skills.
- **Extra Curricular: NCC Cadet, Tarang SMVDU(ECE Society).**
